Dear Parents,

**Superintendent**

Timothy B. Baird, Ed.D.

In previous years, we have offered parents the option of purchasing iPad insurance which covered all iPad repairs. This program has been very successful and has helped protect parents from expensive repair costs while providing the District with a ready source of funding to enable timely repairs. We have been very impressed with how responsible our students have been with taking care of their equipment.

After reviewing current District resources for these needs, it has been determined that the District has sufficient resources to cover any iPad damage which may be incurred during the 2016-2017 school year. Therefore, no insurance payments will be requested at this time.

Administrative Services

Students will be expected to continue to use the iPads and accessories responsibly. This includes taking appropriate care of all District issued technology at all times. Thank you for your support of our District and students and we look forward to another great school year.
